Overall Direction

Redesign the existing website to create a modern, premium and welcoming experience that reflects Bhutanese hospitality, the natural beauty of Trongsa and Yangkhil Resort's 20+ years of experience.

The aesthetic should feel like a b**outique resort: elegant, nature-inspired and authentic, with warm neutral tones, blue/gold accents, clean typography and high-quality photography.** Keep the design minimal, spacious and easy to navigate. Stick to logo colors and fonts.

About Us Page

Established in 2004, Yangkhil Resort sits on a hillside overlooking the historic Trongsa Dzong, Taa Dzong and the Mangde Chhu river, with views of mountains rising above 10,000 feet. Just a short walk from Trongsa town, the resort offers a peaceful retreat in the heart of central Bhutan.

The property comprises five two-storey cottages with 21 rooms, set among landscaped gardens and greenery. Over the past two decades, Yangkhil has continued to grow and improve its facilities while retaining the warmth of traditional Bhutanese hospitality. Many members of our management team have been with us since the beginning, bringing years of experience and a familiar, personal touch to the way we welcome our guests.

From comfortable accommodation and dining to wellness experiences and spaces for private gatherings, Yangkhil offers a place to unwind after a day of exploring Trongsa or travelling through Bhutan.

Whether staying for a night or a little longer, we hope our guests find more than just a place to rest, but a little home away from home, surrounded by the beauty of Bhutan.
